Dear Members, Supporters, and Guests,

In response to public health concerns and the CDC's recommendations regarding COVID-19, the Science Center will temporarily close to the public beginning Friday, March 20 at 10 a.m. through April 30. The museum will reopen to the public at 10 a.m on May 1. For the safety of our guests and staff, we feel it is our responsibility to use an abundance of caution and do what we can to help slow the spread of the Coronavirus.

We are terribly sorry for anyone who was planning to visit us or attend any events scheduled between March 20 and May 1. Know that we are just as disappointed, but we're also working behind the scenes to keep everyone entertained and educated via live streaming animal presentations and science demonstrations during our closure. We'll be live and posting videos on our Facebook at 10 a.m. Monday through Friday during those dates, and you can view and share these videos at a later time on Facebook or Youtube as well.

Stay safe,
Emerald Coast Science Center Staff
